

The Testimony of Nelson

One night in Paris

Technically

It's a long tale

Narrated by

Nelson

Someone

That witnessed my story

In the kitchen

And how

With no prior

kitchen

experience

I became a prep cook

Then

A line cook

then

A sous chef

For a certain amount of time

In the space of

3 months

But

That will be long

Too

Long

and , also

Out of topic

What I wanted to say here

That

The day before I first stepped to a kitchen

And after the first couple of weeks that I spent in the kitchen

It was imaginable to me

At that point

That I will be making meals in a fine dining restaurant

Professionally

As a cook

yet , it happened

And what

happened

Is

that I learnt a technique

at

the right

circumstances

and context
